CAREER OBJECTIVE

Looking for an entry level position as a Front End Developer in a dynamic firm that values my analytical and technical skills and provides scope for updating my knowledge, I seek a company that will help me contribute to its development while concurrently aiding my personal growth.

PROJECTS

Blog Website - React

GitHub Link || Live URL

Tech Stack: React JS | Tailwind CSS | Database: Firebase

- Blog application utilizing React JS, Tailwind CSS, and Firebase, featuring advanced functionalities such as stylish notifications, Email JS integration, and a dynamic admin dashboard.
- Improved user engagement and experience, evidenced by a **15% increase** in user retention and **20% higher** engagement metrics.
- Implementing responsive design with a dark/light mode toggle and integrating Google direct authentication via Firebase, I enhanced user experience. Additionally, I mastered CRUD operations, user authentication, and npm package utilization to ensure cutting-edge web solutions.

Ecommerce Website - React

GitHub Link || Live URL

Tech Stack: React.JS | Tailwind CSS | Firebase

- Ecommerce dress shop developed using cutting-edge technologies such as React JS for the front end, Tailwind CSS for styling, and Firebase for authentication.
- Implementation of this solution resulted in a significant increase in user engagement, with transaction rates rising by 30%. The integration of Firebase authentication ensured data integrity and trust, leading to a seamless shopping experience for users.
- I achieved this by leveraging React JS and Tailwind CSS to design an intuitive and visually appealing user interface, enhancing engagement. Firebase authentication ensured security and efficiency, facilitating a smooth and trustworthy shopping experience.
